

# Drawings Scanning

📞 877.362.8266 📧 info@nimble.ca

HAVE LOTS OF WIDE FORMAT DRAWINGS?  
HIGH QUALITY SCANNING ENSURES THEY'RE PROTECTED.

**Sharp Scans** – sharp, accurate scans calibrated specifically for technical documents like CAD drawings/blueprints.

**Pre-Scan Expertise** – pre-scan experts ensure the high-quality capture of folded or rolled CAD drawings/blueprints.

**High Res** – high 600 or 1200 dpi optical resolution for sharp and shadow free scans.

**Choice of Outputs** – black and white, colour, and greyscale outputs

**Shareable** – PDF, TIFF, and JPEG formats for sharing, printing, and emailing.

**Mobile** – fast, accurate, and secure retrieval from any device.

**More Space** – recover valuable storage space in your office and eliminate the need for inefficient off-site storage

Nimble's wide format scanners are ideal for scanning CAD drawings, blueprints, or any wide format technical document. Our intelligent image processing can even make your digital drawings look better than the original!
